

Report on Plantation Drive by Students of IVS under Eco- Club

Date: July 24, 2025

Venue: IVS Institute to Chirag Delhi Park

A **plantation drive** was successfully conducted on **July 24, 2025**, by the **students of IVS under Eco- Club** as part of their environmental awareness initiative. The objective was to sensitise students about the importance of trees in our lives and to encourage active participation in environmental conservation efforts.

Prior to the event, students were encouraged to bring saplings of their choice from home by the faculty. The faculty guided the students regarding proper planting techniques, soil preparation, and post-plantation care. Permissions were obtained from local authorities to carry out the drive at **Chirag Delhi Park**.

On 24th July, students and faculty members gather at the IVS campus at 9:30 am. The Principal of IVS, Dr Mandira Gupta, graced the occasion with her presence. She motivated and appreciated students for their dedication toward the cause of environmental preservation. In her motivating address, the Principal emphasized the importance of maintaining a green environment and encouraged students to adopt sustainable practices in their daily lives. She stated - "Plants are the lungs of our planet. Each sapling planted today is a step towards securing a cleaner, healthier future. Let us nurture these plants like our own responsibility."

Accompanied by faculty members, the students marched towards **Chirag Delhi Park from the IVS campus**, in a disciplined and energetic manner, carrying the banners and chanting the slogans like *"Go Green, Breathe Clean!"*, *"Plant Trees, Save Earth!"* etc. Students displayed remarkable enthusiasm and a deep sense of responsibility toward nature by carrying plants they had brought from home, The drive included the plantation of **medicinal, flowering, and native species**. On reaching the park, each student actively took part in digging, planting, and watering the saplings with care and commitment.

The plantation drive proved to be a fruitful initiative that not only helped beautify the community park but also fostered environmental awareness among the future educators. It stood as a fine example of active citizenship and practical learning. It also fostered a sense of teamwork, and service learning. IVS looks forward to conducting more such meaningful activities in the future and nurturing a generation of environmentally conscious educators.
