Report on Group Discussion

(16th February, 2024)

Recognizing the significance of placement and competitive exams for future success of trainee teachers Dr. Fozia Roohi and Ms. Anuradha Daheriya on 16th February 2024. The aim of discussion was to orient the students with qualifying exam such as CTET and recruitment exams such as DSSSB, KVS and NVS etc.

During the group discussion students shared their doubts and queries regarding different aspects of classroom management, NEP 2020, recent changes introduced by the policy in school curriculum, tips for qualifying such competitive exams and facing recruitment procedure etc. They were familiarized as how to introduce themselves before interview board and answer their queries. They were further oriented with their strengths and weaknesses so that they could improve their overall personality and compete with others in real life based situations. It was a great opportunity for the students especially for second year students as they have to be a part of same situation soon. We are thankful to our Principal Mam, Faculty members and technical support team for providing us needed guidance and assistance.
