

Essay Writing Competition

(29-08-2025)

Essay writing is a structured form of writing that expresses ideas, arguments, or information in a logical and coherent manner. The organization of an essay plays a crucial role in ensuring clarity, flow, and effectiveness of communication. Assuming the significance of essay writing in developing awareness towards cleanliness and maintaining hygiene, students of IVS organized an Essay Writing Competition on 29th August, 2025 as per the instructions of GGSIP University & Govt. of NCT Delhi in their respective training schools. All students enthusiastically expressed their ideas in essay writing activity. They pointed out the issues of garbage, pollution and lack of awareness among community members.

Students also provided the solution for such problems. It was of course a significant activity in making pupil- teachers and students aware of environmental issues, cleanliness concerns and role of individual and community in this regard. Few glimpses of the activity are as followed:
