

SWACHHATA DRIVE REPORT

16th August, 2025

Institute of Vocational Studies (GGSIPU), New Delhi

Institute of Vocational Studies (IVS), affiliated with Guru Gobind Singh Indraprastha University (GGSIPU), New Delhi, successfully organized a Swachhata Drive on 16th August, 2025. This initiative was undertaken with the spirit of contributing to the national vision of Swachh Bharat Abhiyan and instilling values of cleanliness, responsibility, and civic awareness among students.

Participation and Scope:

The drive witnessed enthusiastic participation from B.Ed. 2024–26, Semester-III trainee students, who took the initiative to carry out cleanliness and awareness activities across different areas of Delhi/NCR. Unlike conventional campus-centric activities, this drive encouraged students to take responsibility in their own residential areas and neighbourhoods, thereby ensuring wider community outreach and impact.

Activities Conducted:

B.Ed. trainee students actively engaged in a variety of cleanliness and awareness activities. These included:

- **Community Cleaning:** Students cleaned streets, lanes, and public spaces in their localities. They collected litter, removed plastic waste, and ensured proper disposal of garbage in designated bins.
- **Neighborhood Drives:** Many students collaborated with residential welfare associations, and local volunteers to clean common utility areas, streets, parks and playgrounds.
- **Awareness Campaigns:** Students interacted with community members, educating them about the importance of cleanliness, segregation of waste, and reduction of single-use plastic.
- **Personal Responsibility:** The drive also emphasized individual accountability for maintaining hygiene in homes, streets, and public places.

Educational and Social Value

The Swachhata Drive went beyond physical cleaning activities, serving as a platform for experiential learning. For the trainee teachers, this initiative aligned with the experiential and value-based learning principles of B.Ed. training. By directly involving themselves in community service, students learned about civic

sense and social responsibility. The drive instilled a strong sense of accountability towards the environment and society.

Community Response

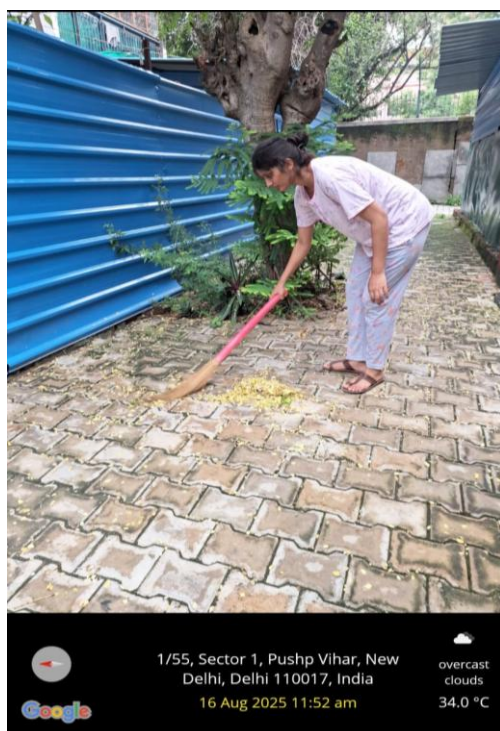

The initiative was widely appreciated by residents. Many community members, inspired by the students' efforts, joined hands in the cleanliness drive. The participation of students created a ripple effect, motivating families and neighbours to adopt cleaner practices in their surroundings.

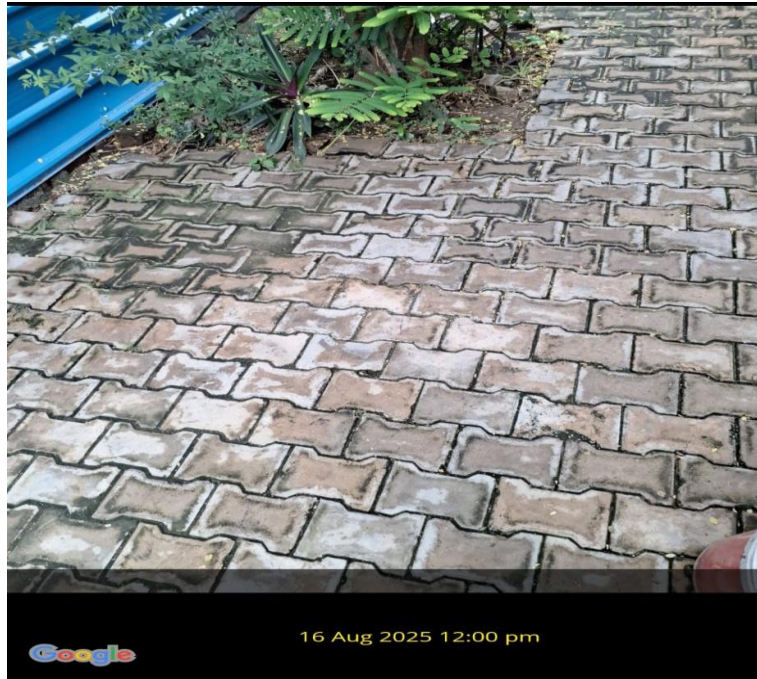

Conclusion

The Swachhata Drive organized by the Institute of Vocational Studies on 16th August, 2025 was not just a symbolic gesture but a meaningful contribution towards creating a cleaner and healthier environment. By engaging with their residential communities, students of IVS successfully extended the message of Swachh Bharat Abhiyan to grassroots levels.

The event reinforced the belief that education is not confined to classrooms but extends into real-life action, where future educators lead by example. The Institute remains committed to continuing such initiatives, thereby nurturing socially responsible teachers who inspire communities towards sustainable living.
