About Institute of Vocational Studies

Education is the only key to human growth and development and with this vision, Institute of Vocational Studies thrives on the philosophy of imparting, encompassing spiritual awakening, physical conditioning and psychological transformation.

The Institute is committed to provide quality education to all, with the mission to uplift socially backward and minority community with special emphasis on the educational empowerment of the girls. The key areas for thrust is on strengthening the capacity of its individuals, providing skill based education, gender equality, building and shaping the attitudes and behavior. Here at Institute of Vocational Studies we believe in bringing excellence in all our endeavors.

About the Seminar

In today's digital age, technology plays a pivotal role in shaping educational experiences and societal opportunities. This **National seminar** aims to explore the transformative potential of technology integration in fostering inclusion, access, and equity across diverse contexts. Seminar will highlight best practices, innovative solutions, and strategies for leveraging technology to bridge gaps and promote equal opportunities for all, designing technology that is accessible to everyone, including people with disabilities. It will also help in Building digital skills to empower marginalized communities and promote socio-economic inclusion.

Seminar will explore how technology can enhance educational experiences, improve learning outcomes, and increase access to quality education.
